PROFESSIONAL SUMMARY

Fresh graduate with a Bachelor's degree in Engineering Technology with hands-on experience in Azure cloud infrastructure and DevOps practices. Proficient in designing and deploying cloud architectures, containerization, CI/CD pipelines, and infrastructure-as-code tools. Eager to contribute to a collaborative DevOps team and grow expertise in cloud-native technologies.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure
Infrastructure as Code: Terraform
Containerization & Orchestration: Docker, Kubernetes
CI/CD: CI/CD Pipelines (GitHub Actions / Azure DevOps)
Version Control: Git, GitHub
Operating Systems: Linux

PROJECTS

Three-Tier Architecture Deployment on Azure Cloud

- Designed and deployed a scalable three-tier application architecture (presentation, application, and data tiers) on Microsoft Azure.
- Provisioned infrastructure using Terraform, ensuring repeatable and version-controlled deployments.
- Containerized application components with Docker and orchestrated them using Kubernetes for high availability.

Technologies: Azure, Terraform, Docker, Kubernetes, GitHub

Embedded Control Unit for Electric Vehicle Battery Management System (Major Project)

- Developed an embedded control unit to monitor and manage battery parameters for electric vehicles.
- Implemented logic to optimize charge/discharge cycles and improve battery lifespan and vehicle safety.

Technologies: Embedded Systems, Microcontroller Programming

CERTIFICATIONS

Linux Unhatched Cisco Credential ID: 95a8ed7e-43ef-47b2-871e-0367e0d32881	April 2026
Python for Beginners Simplilearn Certificate Code: 9970081	March 2026

EDUCATION

Bachelor of Engineering Technology TKR College of Engineering Technology and Management, Hyderabad	2025
Intermediate (Class XII) Telangana Social Welfare Residential Jr. College, Bhongir	2020
Secondary School Certificate (Class X) Viswadeep Vidyapeeth High School (EM), GPA: 8.0/10	2018
